

## **ANNEX A            List of Questions**

Q1 What are your views on our planned approach to require import notification of all produce and of enforcing the General Marketing Standard at point of import?

Q2. As we are retaining PEACH for import notifications are there any issues with the current system you would like to highlight or areas that could be improved?

Q3. Do you agree with the risk based criteria currently used by PEACH to apportion risk status to consignments?

Q4. As we are retaining the ICRAS system for domestic trade are there any issues with the current system you would like to highlight or areas that could be improved?

Q5 Do you agree with the risk based criteria currently used by ICRAS to apportion risk status to traders?

Q6. If you have been approved under the ATS are you able to supply any information on the costs and benefits to your organisation experienced as a result of operating under this Scheme?

Q7. Should the Approved Trader Scheme be extended to applications from exporters and importers and if so do you think there would be much demand for participation in the Scheme?

Q8. We are intending to allow the exemption from the Specific Marketing Standards for products sold at retail to consumers for their personal use which are labelled 'product intended for processing' – do you have any comments?
