

# UK microchip manufacturers and suppliers

The following table lists a selection of microchip manufacturers in the UK who should be able to supply pet owners with scanners. You should note that certain scanners and microchips are not compatible with each other. Before buying a scanner therefore, it is essential to check with the manufacturer that it will be capable of reading the microchip that you want to have read.

Please note that this does not purport to be a complete list of microchip or scanner manufacturers in the UK and does not prevent you from using the products of a manufacturer not mentioned. Nor is any approval or endorsement of any product implied.
